

# EO US EAST BRIDGE

## Expanded experience + High caliber members + Flexibility

US East Bridge is for entrepreneurs ready to step into a new, enhanced EO experience. It goes beyond the boundaries of a local chapter to tap into EO's true global potential.

We know our members are busy, so we are built as a choose-your-own-adventure chapter. But we also believe in choosing adventure. Whether the path you are walking is to build a better lifestyle, grow a bigger business, expand internationally, or take a focused sabbatical or exit, we have a pathway for you. Our chapter is deeply committed to creating strong, enriched, contextual connections, pairing you with fellow members who share your ambitions and outlook.

As an globally-focused chapter, we offer both in-person and online learning events, along with a deep online forum experience, allowing you to travel freely and still stay connected.

### How To Join?

[Click here to learn the steps to become a member of US East Bridge](#)
